EUROAGKEM[®] GREEN GOLD

DIRECTIONS FOR USE :

For use with approved PESTICIDES which have a recommendation for the addition of a wetter/spreader.

COMPATIBILITY:

GREEN GOLD is compatible with most Wettable Powders, Emulsifiable Concentrates and Suspension concentrates.

RATE OF USE

GREEN GOLD is authorised for use as follows:

Non-crop situations: At an inclusion rates of up to 2.5% with approved formulations of 2,4-D and glyphosate (Follow the statutory conditions of use of the pesticide).

All edible crops: Applied pre-emergence of the crop - At an inclusion rates of up to 2.5% with approved formulations of 2,4-D and glyphosate (Follow the statutory conditions of use of the pesticide).

All edible crops: Applied post-emergence of the crop - At an inclusion rates of up to 2.5% with a full rate of all approved pesticides up to the growth stages specified (Follow the statutory conditions of use of the pesticide).

Once the crop stages below are exceeded **GREEN GOLD** may be applied at an inclusion rate of up to 2.5% with a maximum of half the approved pesticide rate (Follow the statutory conditions of use of the pesticide for latest pesticide application timing).

Crop	Latest Growth stage
Almond, Apricot, Cherry, Peach, Plum	up to and including first fruit set
Apples/pears	up to and including fruit 5 - 10 mm
Bean	up to and including first pod set
Blackcurrant	up to and including first fruit visible green fruitlet
Brussels sprout	up to and including lateral buds beginning to develop
Cauliflower	up to and including heads beginning to form (width of growing tip up to 1 cm)
Cereals	up to and including GS 52 (1/4 of ear emerged)
Cucumber	up to and including first fruit set
Grapes	up to and including first fruit set
Hops	up to and including first cone set
Lettuce	varieties forming heads: up to and including heads beginning to form. varieties not forming heads: up to and including leaf rosette has reached 30% of the diameter typical for the variety
Linseed	up to and including 10% capsules formed
Maize	up to and including tip of tassel visible
Oilseed rape	up to and including 10% potential pods
Pea (edible podded)	up to and including pod set
Potato	up to and including tuber initiation
Raspberry	up to and including first fruit set
Strawberry	up to and including first fruit development
Sugar beet	Up to and including 6 fully expanded leaves
Tomato	up to and including first fruit set on truss

USE ON GRASSLAND: **GREEN GOLD** should be used on grassland with HALF the recommended rate of pesticide. The grazing intervals, conditions of approval of the pesticide and other advice must be adhered to.

MIXING: GREEN GOLD should be added separately to the already pre-dispersed chemical in the spray tank. Half fill the spray tank with water and commence agitation. Add the recommended quantity of pesticide. Mix well then add the required quantity of **GREEN GOLD**. Continue agitation while topping up the tank and during spraying.

CAUTIONS: For use in conventional crop sprayers at recommended volumes of spray.

Use only with one pesticide at a time.

Do not use **GREEN GOLD** on crops suffering from stress of any kind, e.g. deficiency, water-logging, herbicide damage, etc.

Do not apply **GREEN GOLD** in frosty weather or when heavy frosts are expected.

CONDITIONS OF SUPPLY

Our products are high grade and we believe them suitable for use as directed, but as we cannot control their mixing, use or weather conditions during and after application, no condition or warranty is made as to their quality or fitness and no responsibility will be accepted for damage or injury arising either directly or indirectly from their storage, handling, application or use. No liability shall be accepted for any loss or damage caused due to any person failing to use the product in accordance with the instructions for use.

SAFETY PRECAUTIONS:

Operator Protection: Engineering control of operator exposure must be used where reasonably practicable in addition to the following personal protective equipment. *Wear suitable protective gloves and eye/face protection (faceshield) when handling the concentrate.

However, engineering controls may replace personal protective equipment if a COSHH assessment shows they provide an equal or higher standard of protection.

Do not get in eyes, on skin, or on clothing.

Do not eat, drink or smoke when using this product.

Wash hands thoroughly after handling.

IF exposed or if you feel unwell: Call a POISON CENTRE or doctor.

Environmental Protection:

Do not use with any pesticide, which is to be applied in or near water.

Storage and Disposal:

Keep locked and out of reach of children. Keep away from food, drink and animal feeding stuffs. Wash out container thoroughly and dispose of safely. Do not re-use the container for any purpose.
